CONTENTS

No. 1 JANUARY 1989

EDITORIAL COMMENT

A Dedication to Lucille Hurley. *Richard A. Freedland, Editor* 1

GUIDE FOR AUTHORS

Revised January 1989 2

CRITICAL REVIEW

The Use of Stable Isotopes in Mineral Nutrition Research. *Judith R. Turnlund* 7

ARTICLES

Lipids

Brain Cell and Tissue Recovery in Rats Made Deficient in n-3 Fatty Acids by Alteration of Dietary Fat. *Jean-Marie Bourre, Georges Durand, Gerard Pascal and Ahcene Youyou* 15

Effect of Dietary n-3 Fatty Acids on Weight Gain and Liver Polar Lipid Fatty Acid Composition of Fingerling Channel Catfish. *Shuichi Satoh, William E. Poe and Robert P. Wilson* 23

Vitamins

Effect of Vitamin A Deficiency on Nitrogen Balance and Hepatic Urea Cycle Enzymes and Intermediates in Rats. *Anita John and B. Sivakumar* 29

The Fate of Dietary Pyridoxine-β-Glucoside in the Lactating Rat. *Paula R. Trumbo and Jesse F. Gregory III* 36

Minerals and Trace Elements

Effects of Different Degrees of Iron Deficiency on Cytochrome P450 Complex and Pentose Phosphate Pathway Dehydrogenases in the Rat. *Agnes Dhur, Pilar Galan and Serge Hercberg* 40

Effect of Protein Level and Protein Source on Zinc Absorption in Humans. *Brittmarie Sandström, Annette Almgren, Barbro Kivistö and Åke Cederblad* 48

Nutrient Requirements

Dietary Biotin Requirements of Young Rainbow Trout (*Salmo gairdneri*) Determined by Weight Gain, Hepatic Biotin Concentration and Maximal Biotin-Dependent Enzyme Activities in Liver and White Muscle. *Bill Woodward and M. Frigg* 54

Metabolism and Hormonal Regulation

Influence of Feeding on Growth Hormone Secretion and Response to Growth Hormone-releasing Factor in Sheep. *Allen Trenkle* 61

Brain Histidine and Food Intake in Rats Fed Diets Deficient in Single Amino Acids. *L. Preston Mercer, Steven J. Dodds, Michael R. Schweisthal and Jon D. Dunn* 66

Nutrition, Pharmacology and Toxicology

Effects of Aspartame and Carbohydrate Administration on Human and Rat Plasma Large Neutral Amino Acid Levels and Rat Brain Amino Acid and Monoamine Levels. *M. Romano, F. Casacci, F. De Marchi, T. Pacei, A. Esteve, G. Lomuscio, T. Mennini and M. Salmona* 75

January, *continued*

The Role of Liquid Diet Formulation in the Postnatal Ethanol Exposure of Rats via Mother's Milk. *Rosa Sanchis, María Sancho-Tello and Consuelo Guerri* 82

Brief Communication

The Effect of Pectin on Hepatic Lipogenesis in the Enterally-Fed Rat. *Rolando H. Rolandelli, Mark J. Koruda, R. Gregg Settle, Maria J. Leskiw, T. Peter Stein and John L. Rombeau* 89

SYMPOSIUM

Biological Actions of Carotenoids. *James Allen Olson* 94
New Imperatives for an Old Vitamin (A). *Alfred Sommer* 96
Carotenoids in Human Blood and Tissues. *Robert S. Parker* 101
Provitamin A Function of Carotenoids: The Conversion of β-Carotene into Vitamin A. *James Allen Olson* 105
Antioxidant Action of Carotenoids. *Graham W. Burton* 109
Carotenoids and the Immune Response. *Adrianne Bendich* 112
A Review of Epidemiologic Evidence that Carotenoids Reduce the Risk of Cancer. *Regina G. Ziegler* 116
Carotenoids and Cancer in Animal Models. *Norman I. Krinsky* 123
Comparative Aspects of Carotenoids and Retinoids as Chemopreventive Agents for Cancer. *Richard C. Moon* 127
Symposium Conclusions: The Biological Actions of Carotenoids. *Adrianne Bendich* 135

ISSUES AND OPINIONS IN NUTRITION

The Future Direction of Nutrition Research:

A Nutrition and Food Sciences Agency is the Key to Progress. *Artemis P. Simopoulos* 137
Increasing Our Scope and the Application of New Technology to Nutritional Science. *Donald B. McCormick* 140

BOOK REVIEWS

Aspects of Digestive Physiology in Ruminants. Alan Dobson and Marjorie J. Dobson, eds. *Reviewed by Calvin L. Ferrell* 142
Sociological and Medical Aspects of Nutrition. Geoffrey H. Bourne, ed. *Reviewed by Elaine B. Feldman and Anne Mast* 143

Announcements

No. 2 FEBRUARY 1989

CRITICAL REVIEW

A Review of Experimental Studies of Iodine Deficiency During Fetal Development. *Basil S. Hetzel and Mark T. Mano* 145

ARTICLES

Lipids

Disparate Effects of Dietary Fatty Acids on Activity of 5′-Nucleotidase of Rat Liver Plasma Membrane. *M. E. Zuniga, B. R. Lokesh, and J. E. Kinsella* 152

February, *continued*

Lack of Specificity of Polyunsaturated Fats in the Inhibition of Rat Liver Glucose-6-Phosphate Dehydrogenase. *Bela Szepesi, A. Kalla Kamara and Steven D. Clarke* 161

Proteins and Amino Acids

Plasma Ammonia, Plasma, Brain and Liver Amino Acids and Urea Cycle Enzyme Activities in Rats Fed Ammonium Acetate. *B. A. Semon, P. M. B. Leung, Q. R. Rogers, and D. W. Gietzen* 166

Vitamins

Effect of Various Intakes of Phylloquinone on Signs of Vitamin K Deficiency and Serum and Liver Phylloquinone Concentrations in the Rat. *Carl G. Kindberg and J. W. Suttie* 175

Role of Intestinal Microflora in the Metabolism of Vitamin B-6 and 4'-Deoxypyridoxine Examined Using Germfree Guinea Pigs and Rats. *Stephen P. Coburn, J. Dennis Mahuren, Bernard S. Wostmann, David L. Snyder and Douglas W. Townsend* 181

Biosynthesis of a Novel Form of Vitamin B-6 by Tumor Cells. *Ronald E. Bishop and George P. Tryfiates* 189

Minerals and Trace Elements

Production and Reversal of the Neuromuscular Pathology and Related Signs of Zinc Deficiency in Guinea Pigs. *Boyd L. O'Dell, James K. Becker, Michelle P. Emery and Jimmy D. Browning* 196

Incorporation of Iron from an Oral Dose into the Ferritin of the Duodenal Mucosa and the Liver of Normal and Iron-Deficient Rats. *Cyrus Ehtechami, Bernd Elsenhans and Wolfgang Forth* 202

Inhibitory Effects of Phytic Acid and Other Inositol Phosphates on Zinc and Calcium Absorption in Suckling Rats. *Bo Lönnerdal, Ann-Sofi Sandberg, Brittmarie Sandström and Clemens Kunz* 211

Selenium Content and Glutathione Peroxidase Activity of Milk from Vegetarian and Nonvegetarian Women. *Bogdan Debski, Dorothy Ann Finley, Mary Frances Picciano, Bo Lönnerdal, and John Milner* 215

Effect of Molybdenum Supplementation on Hepatic Trace Elements and Enzymes of Female Rats. *Meiling T. Yang and Shiang P. Yang* 221

A Comparison of Intrinsic and Extrinsic Tracer Methods for Estimating Calcium Bioavailability to Rats from Dairy Foods. *Maciej S. Buchowski, Karen C. Sowizral, Frederick W. Lengemann, Darrell Van Campen and Dennis D. Miller* 228

Nutrient Interactions

Independent Effects of Fiber and Protein on Colonic Luminal Ammonia Concentration. *Joanne R. Lupton and Linda J. Marchant* 235

Nutrient Uptake and Transport

Uptake of ^{75}Se-Selenite by Brush Border Membrane Vesicles from Chick Duodenum Stimulated by Vitamin D. *Hannu M. Mykkanen and Robert H. Wasserman* 242

Nutrient Requirements

Effects of Dietary and Abomasally Infused Choline on Milk Production Responses of Lactating Dairy Cows. *B. K. Sharma and R. A. Erdman* 248

Growth, Development and Aging

Species and Strain Differences in Teratogenic Effects of Biotin Deficiency in Rodents. *Toshiaki Watanabe and Akira Endo* 255

Metabolism and Hormonal Interactions

Fractional Contributions to Total Carnitine in the Neonatal Rat. *Alan T. Davis* 262

Phosphoenolpyruvate Carboxykinase of Rat Small Intestine: Distribution and Regulation of Activity and mRNA Levels. *Malcolm Watford and Alicia V. Tatro* 268

Nutrition, Pharmacology and Toxicology

Biosynthesis of Hippurate, Urea and Pyrimidines in the Fatty Liver: Studies with Rats Fed Orotic Acid or a Diet Deficient in Choline and Inositol, and with Genetically Obese (Zucker) Rats. *Sibusisiwe M. Maswoswe and George C. Tremblay* 273

February, *continued*

Nutrition and Disease Interactions

Short Term Neonatal Starvation Altered Cholera Toxin Binding in Rabbits. *Susan S. Baker, Cara Campbell and W. Allan Walker* 280
Determination of Degree of Energy Restriction Necessary to Reduce DMBA-Induced Mammary Tumorigenesis in Rats During the Promotion Phase. *David M. Klurfeld, Carrie B. Welch, Matthew J. Davis, and David Kritchevsky* 286

SYMPOSIUM

Nutrient Control of Gene Expression in Avian Cells. *Charles C. McCormick* 292
Discovery of Noninfectious Viral Genes Complementary to Marek's Disease Herpes Virus in Quail Susceptible to Cholesterol-Induced Atherosclerosis. *Jason C. H. Shih, Roman Pyrzak and James S. Guy* .. 294
Nutritional and Hormonal Regulation of the Gene for Avian Malic Enzyme. *Alan G. Goodridge, James F. Crish, F. Bradley Hillgartner, and S. Brian Wilson* 299
Structure and Expression of Chicken Metallothionein. *Lawrence P. Fernando, Deyue Wei and Glen K. Andrews* 309
Hormonal and Nutritional Regulation of Phosphoenolpyruvate Carboxykinase mRNA Levels in Chicken Kidney. *Malcolm Watford* 319

ISSUES AND OPINIONS IN NUTRITION

The Future Direction of Nutrition Research:

Unraveling the Diet—Disease Connection. *Elaine B. Feldman* 323
Strong Inference. *Joseph R. Prohaska* 325

BOOK REVIEWS

Manganese in Metabolism and Enzyme Function. Vern L. Schramm and Frederick C. Wedler, eds. *Reviewed by Deborah L. Baly* 327
Linear Growth Retardation in Less Developed Countries. John C. Waterlow, ed. *Reviewed by George G. Graham* 328
Nutrition and Immunity. M. Eric Gershwin, Richard S. Beach and Lucille S. Hurley. *Reviewed by Paul M. Newberne* 330

Erratum 331

Announcements

No. 3 MARCH 1989

CRITICAL REVIEW

Some Aspects of the Chronobiology of Nutrition: More Work is Needed on "When to Eat". *Franz Halberg* 333

ARTICLES

Lipids

Effect of Dietary Lipid Composition on Rat Liver Microsomal Phosphatidylcholine Synthesis. *Katharine M. Hargreaves, Daniel J. Pehowich and M. Thomas Clandinin* 344
Dietary Fat and Cholesterol Effects on Cholesterol Metabolism in CBA/J and C57BR/*cdJ* Mice. *Son-Iu Kuan and Jacqueline Dupont* 349

March, *continued*

Plasma Lipids, Lipoproteins, and Fecal Excretion of Neutral Sterols and Bile Acids in Rats Fed Various High Fat Diets or a Low Fat/High Sucrose Diet. *Arne T. Høstmark, Einar Lystad, Anna Haug and Einar Eilertsen* 356

Ca^{2+}-Mg^{2+} ATPase of Mouse Cardiac Sacroplasmic Reticulum is Affected by Membrane n-6 and n-3 Polyunsaturated Fatty Acid Content. *Joy E. Swanson, Belur R. Lokesh and John E. Kinsella* 364

Changes in Plasma Cholesterol Density Distribution of Young Adult Male Rats Fed a High Fat and Cholesterol Diet Following Maternal Cholestyramine Treatment. *Sheila M. Innis* 373

Carbohydrate and Fiber

Differential Changes in the Urinary Excretion of Two Orally Administered Polyethylene Glycol Markers (PEG 900 and PEG 4000) in Rats after Feeding Various Carbohydrate Gelling Agents. *Bernd Elsenhans and Wolfgang F. Caspary* 380

Effect of Acarbose (BAY-g-5421) on Expression of Noninsulin-Dependent Diabetes Mellitus in Sucrose-Fed SHR/N-Corpulent Rats. *Nancy Carswell, Otho E. Michaelis, IV, and Elizabeth S. Prather* 388

Wheat Bran and the Induction of Intestinal Benzo(a)pyrene Hydroxylase by Dietary Benzo(a)pyrene. *Steven K. Clinton and Willard J. Visek* 395

The Effects of Guar Gum or Wheat Bran on the Disappearance of ^{14}C-Labeled Starch from the Rat Gastrointestinal Tract. *Lesley Fels Tinker and Barbara Olds Schneeman* 403

Vitamins

Effect of Dietary Ascorbic Acid, Cholesterol and PCB on Cholesterol and Bile Acid Metabolism in a Rat Mutant Unable to Synthesize Ascorbic Acid. *Fumihiko Horio, Kazuto Ozaki, Hiroaki Oda, Susumu Makino, Yoshiyuki Hayashi and Akira Yoshida* 409

Vitamin B-12 and Folate Function in Chronic Alcoholic Men and Peripheral Neuropathy and Encephalopathy. *Peter Gimsing, Bjørn Melgaard, Kjeld Andersen, Hendrik Vilstrup and Erik Hippe* 416

Effect of Single Oral Doses of Ascorbic Acid on Body Temperature in Healthy Guinea Pigs. *Carol S. Johnston* 425

Minerals and Trace Elements

Measurement of Calcium and Phosphorus Fluxes during Lactation in the Rat. *Robert Brommage* 428

Effects of Iron Deficiency on Metallothionein-I Concentrations in Blood and Tissues of Rats. *Aileen Robertson, James N. Morrison, Anne M. Wood and Ian Bremner* 439

The Enhancement of Nonheme Iron Bioavailability by Beef Protein in the Rat. *Dennis T. Gordon and J. Samuel Godber* 446

Nutrient Interactions

Copper Status in the Rat is Affected by Modes of Copper Delivery. *Eunsook T. Koh, Sheldon Reiser, Meira Fields and Daniel J. Scholfield* 453

Growth, Development and Aging

Evidence for Abnormal Prostaglandin Synthesis in Obese Zucker Rat Adipose Cell Cultures. *H. Rex Gaskins, Dorothy B. Hausman, Roy J. Martin and Gary J. Hausman* 458

Influences of Age and Weaning on In Vivo Pancreatic Protein Synthesis in the Lamb. *Didier Attaix, Eveline Aurousseau, Gerard Bayle, Danuta Rosolowska-Huszcz, Abolghasem Manghebati and Maurice Arnal* 463

Metabolism and Hormonal Regulation

Differential Regulation of the Degradation of Myofibrillar and Total Proteins in Skeletal Muscle of Rats: Effects of Streptozotocin-Induced Diabetes, Dietary Protein and Starvation. *Motoni Kadowaki, Nahoko Harada, Sachiko Takahaski, Tadashi Noguchi and Hiroshi Naito* 471

Mitochondrial Storage Forms of Acetyl CoA Carboxylase: Mobilization/Activation Accounts for Increased Activity of the Enzyme in Liver of Genetically Obese Zucker Rats. *John B. Allred, Carmen R. Roman-Lopez, Richard R. Jurin and Sylvia A. McCune* 478

Liver Insulin Receptor Tyrosine Kinase Activity in a Rat Model of Type II Diabetes Mellitus and Obesity. *Martin Adamo, Joshua Shemer, Meir Aridor, Jan Dixon, Nancy Carswell, Sam J. Bhathena, Otho E. Michaelis, IV, and Derek LeRoith* 484

March, *continued*

Nutrition, Pharmacology and Toxicology

In Vivo Binding of the Winged Bean Basic Lectin Labeled with Iodo[2-^{14}C]Acetic Acid to the Intestinal Epithelial Cells of the Rat. *Masako Higuchi, Teruo Kawada and Kazuo Iwai* 490
Comparison of Dehydroepiandrosterone and Clofibric Acid Treatments in Obese Zucker Rats. *Pamarthi F. Mohan and Margot P. Cleary* 496

Nutrition and Disease Interactions

Effect of Dietary Iodine on Autoimmune Thyroiditis in the BB Wistar Rat. *Peter W. F. Fischer, James S. Campbell and Alexandre Giroux* 502
Dietary β-Carotene in Rat Models of Gastrointestinal Cancer. *R. Conrad Jones, Shigeyuki Sugie, Joanna Braley and John H. Weisburger* 508

ISSUES AND OPINIONS IN NUTRITION

The Future Direction of Nutrition Research:

Nutrition Science Reflects the Principals of Biological Organization. *Felix Bronner* 515

BOOK REVIEWS

Food—Biochemistry and Nutritional Value. David S. Robinson. *Reviewed by John R. Whitaker* 518
Atherosclerosis Reviews, Volume 17: Lipoproteins and Atherosclerosis. R. I. Levy, A. N. Klimov, V. N. Smirnov and H. A. Tyroler, eds. *Reviewed by David Kritchevsky* 519

Announcements

No. 4 APRIL 1989

SPECIAL ARTICLE

Summary of the NATO Advanced Research Workshop on Dietary ω3 and ω6 Fatty Acids: Biological Effects and Nutritional Essentiality. *Artemis P. Simopoulos* 521

COMMENTARY

Monounsaturated Fatty Acids and Cholesterol Metabolism: Implications for Dietary Recommendations. *Scott M. Grundy* 529

ARTICLES

Lipids

Sphingolipid Biosynthesis by Rat Liver Cells: Effects of Serine, Fatty Acids and Lipoproteins. *Trudy O. Messmer, Elaine Wang, Victoria L. Stevens and Alfred H. Merrill, Jr.* 534
Effect of Dietary Fat and Cholesterol Supplements on Glucagon Receptor Binding and Adenylate Cyclase Activity of Rat Liver Plasma Membrane. *Chi-Ru Lee and Michael W. Hamm* 539

Proteins and Amino Acids

Dietary Protein Enhanced Mammary Ornithine Decarboxylase Activity and Tumorigenesis in Rats. *E. J. Hawrylewicz, Carl K. Moshovitis, Christopher Reger and Janet Madell* 547

Carbohydrate and Fiber

Utilization and Excretion of a New Sweetener, Fructooligosaccharide (Neosugar), in Rats. *Takahisa Tokunaga, Tsuneyuki Oku and Norimasa Hosoya* 553

April, *continued*

Specific Effects of Fermentable Carbohydrates on Blood Urea Flux and Ammonia Absorption in the Rat Cecum. *Christian Rémésy and Christian Demigné* 560
Influence of Meal Distribution of Wheat Bran on Fecal Bulk, Gastrointestinal Transit Time and Colonic Thymidine Kinase Activity in the Rat. *Megumi Otsuka, Subramaniam Satchithanandam and Richard J. Calvert* 566

Vitamins

The Distribution of [^{14}C]-2,3,7,8-Tetrachlorodibenzo-*p*-Dioxin (TCDD) and its Effect on the Vitamin A Content in Parenchymal and Stellate Cells of Rat Liver. *Helen Håkansson and Annika Hanberg* 573
The Effect of Dietary Fatty Acid Composition on Liver Retinyl Ester (Vitamin A Ester) Composition in the Rat. *Harold C. Furr, Andrew J. Clifford, Lloyd M. Smith and James A. Olson* 581
Inhibition of Murine Melanoma Growth by Sodium Ascorbate. *Neil S. Gardiner and John R. Duncan* ... 586
Biochemical Markers for Assessment of Niacin Status in Young Men: Urinary and Blood Levels of Niacin Metabolites. *Robert A. Jacob, Marian E. Swendseid, Ralph W. McKee, Casey S. Fu and Roger A. Clemens* 591

Minerals and Trace Elements

Studies of Iron:Zinc Interactions in Adult Rats and the Effect of Iron Fortification of Two Commercial Infant Weaning Products on Iron and Zinc Status of Weanling Rats. *Susan J. Fairweather-Tait and Susan Southon* 599
The Effect of Valproic Acid on ^{65}Zn Distribution in the Pregnant Rat. *Carl L. Keen, Jeffrey M. Peters and Lucille S. Hurley* 607

Metabolism and Hormonal Regulation

Effect of Dietary Methyl Group Deficiency on One-Carbon Metabolism in Rats. *Robert J. Cook, Donald W. Horne and Conrad Wagner* 612
Effect of Dietary Methyl Group Deficiency on Folate Metabolism in Rats. *Donald W. Horne, Robert J. Cook, and Conrad Wagner* 618
Evidence for an Intraluminal Mediator in Rat Pancreatic Enzyme Secretion: Reconstitution of the Pancreatic Response with Dietary Protein, Trypsin and the Monitor Peptide. *Tohru Fushiki, Hideaki Kajiura, Shin-Ichi Fukuoka, Keishi Kido, Toshihiko Semba and Kazuo Iwai* 622
Insulin Resistant Glucose Transport Activity in Adipose Cells from the SHR/N-Corpulent Rat. *Deborah L. Baly, Mary Jane Zarnowski, Nancy Carswell, and Otho E. Michaelis* 628
Influence of Sometribove, USAN (Recombinant Methionyl Bovine Somatotropin) on the Body Composition of Lactating Cattle. *Dan L. Brown, Scott J. Taylor, Edward J. De Peters and R. Lee Baldwin* 633

Nutrition Uptake and Transport

Zinc Uptake by Basolateral Membrane Vesicles from Rat Small Intestine. *Paul Oestreicher and Robert J. Cousins* 639

Nutrition and Disease Interactions

The Effect of Dietary Cholecalciferol, 25-Hydroxycholecalciferol and 1,25-Dihydroxycholecalciferol on the Development of Tibial Dyschondroplasia in Broiler Chickens in the Absence and Presence of Disulfiram. *Hardy M. Edwards, Jr.* 647

Nutrition and Physical Activity

Exercise Training and Dietary Chromium Effects on Glycogen, Glycogen Synthase, Phosphorylase and Total Protein in Rats. *Wayne W. Campbell, Marilyn M. Polansky, Noella A. Bryden, Joseph H. Soares, Jr. and Richard A. Anderson* 653

Brief Communication

DNA Strand Break Accumulation, Thymidylate Synthesis and NAD Levels in Lymphocytes from Methyl Donor–Deficient Rats. *S. J. James, L. Yin and M. E. Swendseid* 661
Dietary β-Carotene Absorption and Metabolism in Ferrets and Rats. *Judy D. Ribaya-Mercado, Sophia C. Holmgren, James G. Fox, and Robert M. Russell* 665

April, *continued*

ISSUES AND OPINIONS IN NUTRITION

The Future Direction of Nutrition Research:

Science, Public Health, Public Policy. *Richard L. Atkinson* 669
Five Issues Confronting Nutrition Research. *Edward D. Harris* 671
Errata 674

Announcements

No. 5 MAY 1989

CRITICAL REVIEW

Protein Intake, Brain Amino Acid and Serotonin Concentrations and Protein Self-Selection. *Alfred E. Harper and John C. Peters* 677

ARTICLES

Lipids

Patterns of Lipogenesis in Laying Hens Fed a High Fat Diet Containing Safflower Oil. *Edward C. Naber and Matthew D. Biggert* 690
Effects of Dietary Beef and Soy Protein on Tissue Composition and Low Density Lipoprotein Uptake in Young Pigs. *Julie A. Johnson, Donald C. Beitz and Norman L. Jacobson* 696

Proteins and Amino Acids

Transport of Selenoamino Acids and their Sulfur Analogues Across the Intestinal Brush Border Membrane of Pigs. *Siegfried Wolffram, Beatrix Berger, Beat Grenacher and Erwin Scharrer* 706
Identification of *N*-β-L-Aspartyl-L-Phenylalanine as a Normal Constituent of Human Plasma and Urine. *Earl G. Burton, Grant L. Schoenhard, Julie A. Hill, R. Eric Schmidt, Jeremy D. Hribar, Frank N. Kotsonis and James A. Oppermann* 713

Carbohydrates and Fibers

Effects of Baking Hulless Barley on the Digestibility of Dietary Components as Measured at the Ileum and in the Feces in Pigs. *James G. Fadel, Rosemary K. Newman, C. Walt Newman, and Hadden Graham* 722
Ability of Juvenile White Sturgeon (*Acipenser transmontanus*) to Utilize Different Carbohydrate Sources. *Silas S. O. Hung, F. Kofi Fynn-Aikins, Paul B. Lutes and Ruping Xu* 727

Vitamins

Relationship Between Dietary Intake and Tissue Levels of Reduced and Total Vitamin C in the Nonscorbutic Guinea Pig. *Joseph Berger, Douglas Shepard, Frank Morrow and Allen Taylor* 734
Vitamin D is Necessary for Reproductive Functions of the Male Rat. *G. G. Kwiecinski, G. I. Petrie and H. F. DeLuca* 741
Pyridoxine Uptake by Rat Renal Proximal Tubular Cells. *Barbara B. Bowman and Donald B. McCormick* 745
Changes in Pyridoxal Phosphate and Pyridoxamine Phosphate in Blood, Liver and Brain in the Pregnant Mouse. *David Furth-Walker, David Leibman and Andrew Smolen* 750

Minerals and Trace Elements

Effects of Dietary Selenium on DMBA-Induced Carcinogenesis in Rats Fed a Diet High in Mixed Fats. *Mary R. L'Abbé, Peter W. F. Fischer, James S. Campbell and Eduardo R. Chavez* 757
Changes in Selenium and Antioxidant Status during DMBA-Induced Mammary Carcinogenesis. *Mary R. L'Abbé, Peter W. F. Fischer, and Eduardo R. Chavez* 766

May, *continued*

Evidence for Thyroid Hormone Deficiency in Iron-Deficient Anemic Rats. *John Beard, Brian Tobin and William Green* 772

Nutrient Interactions

Ascorbate Enhances Copper Transport from Ceruloplasmin into Human K562 Cells. *Susan S. Percival and Edward D. Harris* 779

Growth, Development and Aging

Short-Term Malnutrition in Neonatal Rabbits: Effect on Gastrointestinal Epithelial Proliferation. *Susan S. Baker and Cara Campbell* 785

Nutrition and Immunology

Antigen-Specific Immune Response Impairment in the Chick as Influenced by Dietary Vitamin A. *Aharon Friedman and David Sklan* 790

Nutrition, Pharmacology and Toxicology

β-Carotene and Aryl Hydrocarbon Hydroxylase in the Rat: An Effect of β-Carotene Independent of Vitamin A Activity. *Thomas E. Edes, William Thornton, Jr. and Jayendra Shah* 796

Conversion of Dietary Choline to Trimethylamine and Dimethylamine in Rats: Dose-Response Relationship. *Steven H. Zeisel, Kerry A. daCosta, Mervat Youssef and Stephanie Hensey* 800

Nutrition and Gene Expression

Synthesis of Amylase by Cultured Rat Pancreatic Acinar Cells: Effects of Antecedent Diet. *Jill D. Justice and Patsy M. Brannon* 805

Nutrition and Disease Interactions

Effects of Dietary Fish Oil or Pectin on Blood Pressure and Lipid Metabolism in the DOCA-Salt Hypertensive Rat. *Vernon Bond, Oliver Ordor, Geza Bruckner, Polly Webb, Theodore Kotchen, Russell J. Tearney and Richard G. Adams* 813

Methionine Hydroxy Analog (Free Acid) Reduces Avian Kidney Damage and Urolithiasis Induced by Excess Dietary Calcium. *Robert F. Wideman, Jr., William B. Roush, Joyce L. Satnick, Raymond P. Glahn and Norman O. Oldroyd* 818

ISSUES AND OPINIONS IN NUTRITION

The Future Direction of Nutrition Research:

Concerns About and Future Direction of Nutrition Research and Training. *Robert B. Rucker* 829

BOOK REVIEW

Trace Elements in Human and Animal Nutrition, 5th ed. Walter Mertz, ed. *Reviewed by Joseph R. Prohaska* 831

Announcements

No. 6 JUNE 1989

CRITICAL REVIEW

Neural Mechanisms in the Control of Blood Glucose Concentration. *Akira Niijima* 833

SUMMARY

The Role of Folate and Vitamin B-12 in Neurotransmitter Metabolism and Degenerative Neurological Changes Associated With Aging: Proceedings of a Workshop. *Ralph Green* 841

June, *continued*

ARTICLES

Lipids

Comparison of the Hypocholesterolemic Effects of Dietary Soybean Protein with Those of Formaldehyde-Treated Casein in Rabbits. *Clive E. West, Caroline J. K. Spaaij, Welmoed M. Clous, Henk P. Twisk, Marij P. H. Goertz, Richard W. Hubbard, Marja W. Kuyvenhoven, Roelof Van Der Meer, Wojciech F. Roszkowski, Albert Sanchez and Anton C. Beynen* 843

Relative Effects of Dietary Oleic- and Linoleic-Rich Oils on Plasma Lipoprotein Composition in Rats. *Denise M. Ney, John B. Lasekan and Junghee Kim* 857

Proteins and Amino Acids

Use of a Four-Parameter Logistic Model to Evaluate the Quality of the Protein from Three Insect Species when Fed to Rats. *Mark D. Finke, Gene R. DeFoliart and Norlin J. Benevenga* 864

Carbohydrates and Fibers

Influence of Cellulose Structure on Its Digestibility in the Rat. *Juinn-Chin Hsu and Michael H. Penner* 872

Effects of Dietary Fiber and Protein Concentration on Growth, Feed Efficiency, Visceral Organ Weights and Large Intestine Microbial Populations of Swine. *Friday O. I. Anugwa, Vincent H. Varel, James S. Dickson, Wilson G. Pond and Lennart P. Krook* 879

Vitamins

Metabolism of [^{14}C]Adipic Acid in Riboflavin-Deficient Rats: A Test In Vivo for Fatty Acid Oxidation. *Christopher J. Bates* 887

Fate of Excess Nicotinamide and Nicotinic Acid Differs in Rats. *Katsumi Shibata* 892

Effect of Supplementing Low Protein Diets with the Limiting Amino Acids on the Excretion of *N*-Methylnicotinamide and Its Pyridones in Rats. *Katsumi Shibata and Hiroko Matsuo* 896

Minerals and Trace Elements

The Effect of Chronic Dietary Acidification Using Ammonium Chloride on Acid-Base and Mineral Metabolism in the Adult Cat. *Shelley V. Ching, Martin J. Fettman, Dwayne W. Hamar, Larry A. Nagode and Katharine R. Smith* 902

Bioavailability of and Interactions between Zinc and Selenium in Rats Fed Wheat Grain Intrinsically Labeled with ^{65}Zn and ^{75}Se. *William A. House and Ross M. Welch* 916

Nutrition and Immunology

Copper Deficiency During Perinatal Development: Effects on the Immune Response of Mice. *Joseph R. Prohaska and Omelan A. Lukasewycz* 922

Nutrition and Disease Interactions

The Interaction Between Vitamin A Status and Newcastle Disease Virus Infection in Chickens. *S. Reinder Sijtsma, Clive E. West, Jan H. W. M. Rombout and Akke J. Van Der Zijpp* 932

Effect of Newcastle Disease Virus Infection on Vitamin A Metabolism in Chickens. *S. Reinder Sijtsma, Clive E. West, Jan H. W. M. Rombout and Akke J. Van Der Zijpp* 940

ISSUES AND OPINIONS IN NUTRITION

The Future Direction of Nutrition Research

Predicting the Future is Problematical, but Planning for It is Possible. *A. Catharine Ross* 948

LETTER TO THE EDITOR

Reply to the Letter of L. C. Clark and G. F. Combs, Jr. *Harold D. Foster* 950

June, *continued*

BOOK REVIEWS

Human Lactation 3. The Effects of Human Milk on the Recipient Infant. Armond S. Goldman, Stephanie A. Atkinson and Lars A. Hanson, eds. *Reviewed by D'Ann Finley* 951
Modern Biological Theories of Aging. Huber R. Warner, Robert N. Butler, Richard L. Sprott and Edward L. Schneider, eds. *Reviewed by Roger McDonald* 952
Laboratory Hamsters. G. L. Van Hoosier, Jr. and C. W. McPherson, eds. *Reviewed by Luigi M. De Luca* 954
Erratum 955
Announcements 956

No. 7 JULY 1989

CRITICAL REVIEW

Molecular Biology and Nutrition Research. *Richard W. Hanson, Maria Hatzoglou, Mary M. McGrane, Anthony Wynshaw-Boris, Fritz M. Rottman and Thomas Wagner* 957

ARTICLES

Lipids

Reduction of Plasma and Hepatic Triacylglycerides with Whole Milk–Containing Diets in Rats. *Barbara O. Schneeman, Ruth Rice and B. Diane Richter* 965

Carbohydrates and Fibers

Nutritional Assessment in Humans and Rats of Leucrose [D-glucopyranosyl-α(1 → 5)-D-fructopyranose] as a Sugar Substitute. *Susanne C. Ziesenitz, Günther Siebert, Dieter Schwengers and Rolf Lemmes* 971
Effects of Dietary Cellulose and Psyllium Husk on Monkey Colonic Microbial Metabolism in Continuous Culture. *Michael A. Costa, Tara Mehta and James R. Males* 979
Effects of Dietary Cellulose, Psyllium Husk and Cholesterol Level On Fecal and Colonic Microbial Metabolism In Monkeys. *Michael A. Costa, Tara Mehta and James R. Males* 986

Vitamins

Role of Vitamin A Degradation in the Control of Hepatic Levels in the Rat. *Maria Anna Leo, Cho-Il Kim and Charles Saul Lieber* 993

Minerals and Trace Elements

Influence of Dietary Methionine on the Metabolism of Selenomethionine in Rats. *J. A. Butler, M. A. Beilstein and P. D. Whanger* 1001
Dietary Selenium Intake Controls Rat Plasma Selenoprotein P Concentration. *Jian-Guo Yang, Kristina E. Hill and Raymond F. Burk* 1010

Nutrient Uptake and Transport

Bioavailability of a Natural Isomer Mixture as Compared with Synthetic all-*trans*-β-Carotene in Rats and Chicks. *Ami Ben-Amotz, Shoshana Mokady, Samuel Edelstein and Mordhay Avron* 1013

Nutrient Requirements

Vitamin B-6 Requirement of Growing Kittens. *Sungchul C. Bai, David A. Sampson, James G. Morris and Quinton R. Rogers* 1020

Growth, Development and Aging

Body Protein and Energy Accretion in Response to Dietary Protein Level in Mice from Weaning to Maturity. *Masaaki Toyomizu, Seiji Kimura, Kunioki Hayashi and Yuichiro Tomita* 1028

July, *continued*

Metabolism and Hormonal Regulation

Effects of Dietary Amines On the Small Intestine In Calves Fed Soybean Protein. *Alan L. Grant, Robert E. Holland, J. William Thomas, Kenneth J. King and James S. Liesman* 1034

Nutrition, Pharmacology and Toxicology

Prolonged Acetaminophen Ingestion in Mice: Effects on the Availability of Methionine for Metabolic Functions. *Marla Reicks and John N. Hathcock* 1042

SYMPOSIUM

Recent Developments in Trace Element Metabolism and Function. *Jerry W. Spears* 1050
Newer Roles of Selenium in Nutrition. *Raymond F. Burk* 1051
Trace Elements, Disease Resistance and Immune Responsiveness in Ruminants. *N. F. Suttle and D. G. Jones* 1055
Role of Metallothionein in Copper and Zinc Metabolism. *Mark P. Richards* 1062

ISSUES AND OPINIONS IN NUTRITION

The Future Direction of Nutrition Research

"And a Little Cell (Child) Shall Lead Them.". *Harry P. Broquist* 1071

BOOK REVIEWS

Pathogenesis and New Approaches to the Study of Noninsulin–dependent Diabetes Mellitus (Progress in Clinical and Biological Research, vol. 265). Albert Y. Chang and Arthur R. Diani, eds. *Reviewed by Shirley W. Thenen* 1075
Clinical and Physiological Applications of Vitamin B-6. (Current Topics in Nutrition and Disease, vol. 19). James E. Leklem and Robert D. Reynolds, eds. *Reviewed by Betty E. Haskell* 1076
Dietary Phenylalanine and Brain Function. R. J. Wurtman and E. Ritter-Walker, eds. *Reviewed by John D. Fernstrom* 1077
Nutritional Diseases: Research Directions in Comparative Pathobiology (Current Topics in Nutrition and Disease, vol. 15). P. G. Scarpelli and G. Migaki, eds. *Reviewed by K. C. Hayes* 1078

SUMMARY

AIN-76 Diet: Should We Change the Formulation? *Philip G. Reeves* 1081

ARTICLES

Proteins and Amino Acids

Protein Digestion in Weanling Pigs: Effect of Feeding Regimen and Endogenous Protein Secretion. *Gary L. Asche, Austin J. Lewis and Ernest R. Peo, Jr.* 1083
Protein Digestion in Weanling Pigs: Effect of Dietary Protein Source. *Gary L. Asche, Austin J. Lewis and Ernest R. Peo, Jr.* 1093

August, *continued*

Carbohydrates and Fibers

Interaction of Bile Acids, Phospholipids, Cholesterol and Triglyceride with Dietary Fibers in the Small Intestine of Rats. *Kiyoshi Ebihara and Barbara O. Schneeman* 1100

Vitamins

Megadose Effects of Vitamin C on Vitamin B-12 Status in the Rat. *Shirley W. Thenen* 1107
Fermentable Dietary Fibers Elevate Urinary Methylmalonate and Decrease Propionate Oxidation in Rats Deprived of Vitamin B-12. *Robert W. Cullen and Susan M. Oace* 1115
Dietary Pectin Shortens the Biologic Half-Life of Vitamin B-12 in Rats by Increasing Fecal and Urinary Losses. *Robert W. Cullen and Susan M. Oace* 1121

Minerals and Trace Elements

Maternal and Fetal Selenium Concentrations and Their Interrelationships in Dairy Cattle. *Robert J. Van Saun, Thomas H. Herdt and Howard D. Stowe* 1128
Absorption of Inorganic, Trivalent Chromium from the Vascularly Perfused Rat Small Intestine. *Hillary J. Dowling, Esther G. Offenbacher and F. Xavier Pi-Sunyer* 1138
Kinetic Modeling of Selenium Metabolism in Nonpregnant Ewes. *Cuddalore R. Krishnamurti, Charles F. Ramberg, Jr. and Mohammed A. Shariff* 1146

Nutrient Interactions

Maternal and Fetal Vitamin E Concentrations and Selenium-Vitamin E Interrelationships in Dairy Cattle. *Robert J. Van Saun, Thomas H. Herdt and Howard D. Stowe* 1156
Morphological and Biochemical Changes in the Pancreas of the Copper-Deficient Female Rat. *Michael A. Dubick, Gloria S. M. Yu and Adhip P. N. Majumdar* 1165
Dietary Fructose as Compared to Glucose and Starch Increases the Calcium Content of Kidney of Magnesium-Deficient Rats. *Eunsook T. Koh, Sheldon Reiser and Meira Fields* 1173

Nutrient Uptake and Transport

Effect of EDTA and Zinc-Methionine Complex on Zinc Absorption by Rat Intestine. *James M. Hempe and Robert J. Cousins* 1179

Metabolism and Hormonal Regulation

Orotic Aciduria Due to Arginine Deprivation: Changes in the Levels of Carbamoyl Phosphate and of Other Urea Cycle Intermediates in Mouse Liver. *Eulalia Alonso and Vicente Rubio* 1188
Effect of Carnitine on Propionate Metabolism in the Vitamin B-12–Deficient Rat. *Eric P. Brass and Laura J. Ruff* 1196
Activities of Branched-Chain Amino Acid–Degrading Enzymes in Liver from Rats Fed Different Dietary Levels of Protein. *Soetijoso Soemitro, Kevin P. Block, Pamela L. Crowell and Alfred E. Harper* 1203
Growth, Metabolic and Endocrine Responses of Broiler Cockerels Given a Daily Subcutaneous Injection of Natural or Biosynthetic Chicken Growth Hormone. *Larry A. Cogburn, Shuenn S. Liou, Alice L. Rand and John P. McMurtry* 1213

Nutrition and Behavior

Reduced Locomotor Activity of Rats Made Histidinemic by Injection of Histidine. *Carlos Severo Dutra-Filho, Clóvis Milton Duval Wannmacher, Ricardo Flores Pires, Gisele Gus, Ana Maria Kalil and Moacir Wajner* 1223

ISSUES AND OPINIONS IN NUTRITION

The Quantities of Nutrients Recommended by the NRC Abate the Effects of a Toxic Alcohol Dose Administered to Rats. *Robert F. Derr* 1228

American Institute of Nutrition Awards and Fellows

Invitation for Nominations for 1990 1231

The Journal Leadership Changes. *Samuel J. Fomon* 1235

COMMENTARY

China, A Country with Both Selenium Deficiency and Toxicity: Some Thoughts and Impressions. *P. D. Whanger* 1236

ARTICLES

Proteins and Amino Acids

Influence of Dietary Carbohydrate-to-Fat Ratio on Whole Body Nitrogen Retention and Body Composition in Adult Rats. *Linda J. McCargar, Vickie E. Baracos and M. Thomas Clandinin* 1240

Carbohydrates and Fibers

Effects of Neutral Detergent Fiber from Blackgram (*Phaseolus mungo*) in Rats and Rabbits. *Madambath Indira and Parameswara Achutha Kurup* 1246

Vitamins

Postprandial Changes in the Plasma Concentration of α- and γ-Tocopherol in Human Subjects Fed a Fat-Rich Meal Supplemented with Fat-Soluble Vitamins. *Mohsen Meydani, Jeffrey S. Cohn, John B. Macauley, Judith R. McNamara, Jeffrey B. Blumberg and Ernest J. Schaefer* 1252

Minerals and Trace Elements

Trace Metal Interactions In Vivo: Inorganic Cobalt Enhances Urinary Copper Excretion without Producing an Associated Zincuresis in Rats. *Daniel W. Rosenberg and Attallah Kappas* 1259

Nutrient Interactions

Mathematical Integration of Protein Metabolism in Growing Lambs. *Margaret Gill, James France, Mark Summers, Brian W. McBride and Larry P. Milligan* 1269
Simulation of the Energy Costs Associated with Protein Turnover and Na^+, K^+-Transport in Growing Lambs. *Margaret Gill, James France, Mark Summers, Brian W. McBride and Larry P. Milligan* 1287

Metabolism and Hormonal Regulation

Stimulation of Gastric Inhibitory Polypeptide Release in *ob/ob* Mice by Oral Administration of Sugars and Their Analogues. *Peter R. Flatt, Piotr Kwasowski and Clifford J. Bailey* 1300
Comparison Among the Lipogenic Potential of Various Substrates in Rat Hepatocytes: The Differential Effects of Fructose-Containing Diets on Hepatic Lipogenesis. *Andres Carmona and R. A. Freedland* ... 1304

Nutrition and Immunology

Lack of an Influence of Dietary Fat on Murine Natural Killer Cell Activity. *Kent L. Erickson and Leslie A. Schumacher* 1311

Nutrition and Diseases Interactions

Biochemical Studies of a Selenium-Deficient Population in China: Measurement of Selenium, Glutathione Peroxidase and Other Oxidant Defense Indices in Blood. *Yiming Xia, Kristina E. Hill and Raymond F. Burk* 1318

Nutrition and Behavior

Influence of Fecal Anorexigenic Substance (FS-T) on Plasma Amino Acids in Wistar and Zucker Obese (*fa/fa*) Rats. *Tomi T. Tsuda, Tomoichi Ohkubo, Hiroshi Kamiguchi, Michio Tsuda, Tsunehiko Katsunuma and Masaichi Yamamura* 1327
Resistance to Dietary Hyperphagia in Juvenile Rats. *Israel Ramirez* 1333

September, *continued*

Nutrition and Physical Activity

Interactions of Iron Deficiency and Exercise Training in Male Sprague-Dawley Rats: Ferrokinetics and Hematology. *Brian W. Tobin and John L. Beard* 1340

LETTERS TO THE EDITOR

Is Biotin Deficiency Teratogenic in Mice?. *Gregory S. Heard and Tana L. Blevins* 1348
Reply to the Letter of G. S. Heard and T. L. Blevins. *Toshiaki Watanabe and Akira Endo* 1350

BOOK REVIEWS

Human Body Composition: Growth, Aging, Nutrition, and Activity. Gilbert B. Forbes *Reviewed by C. Alan Titchenal* 1351

Lipids

Influence of the Sex-Linked Dwarfing Gene (*dw*) on the Lipid Composition of Plasma, Egg Yolk and Abdominal Fat Pad in White Leghorn Laying Hens: Effect of Dietary Fat. *Camille Burghelle-Mayeur, Yves Demarne and Philippe Mérat* 1361
Evidence of Enhanced Storage Capacity in Adipose Tissue of Genetically Fat Chickens. *D. Hermier, A. Quignard-Boulangé, I. Dugail, G. Guy, M. R. Salichon, L. Brigant, B. Ardouin, and B. Leclercq* 1369
Effect of Dietary Fat Composition on Rat Colon Plasma Membranes and Fecal Lipids. *Atif B. Awad, J. P. Chattopadhyay and M. E. Danahy* 1376
Interrelated Effects of Dietary Fiber and Fat on Lymphatic Cholesterol and Triglyceride Absorption in Rats. *Ikuo Ikeda, Yoshiaki Tomari and Michihiro Sugano* 1383

Proteins and Amino Acids

Effect of Colostomy on Nitrogen Nutrition in the Chicken Fed a Low Protein Diet Plus Urea. *Yutaka Karasawa* 1388

Vitamins

Evaluation of Vitamin B-6 Status and Function of Rats Fed Excess Pyridoxine. *Monica C. Schaeffer, David A. Sampson, James H. Skala, Dorothy W. Gietzen and Robert E. Grier* 1392
Neomycin Has No Persistent Sparing Effect on Vitamin B-12 Status in Pectin-Fed Rats. *Robert W. Cullen and Susan M. Oace* 1399

October, *continued*

Minerals and Trace Elements

Altered Cytoskeletal Organization and Secretory Response of Thrombin-Activated Platelets from Copper-Deficient Rats. *W. Thomas Johnson and Steven N. Dufault* 1404

Fluoride Absorption from the Gastrointestinal Tract of Rats. *Jeerasak Nopakun, Harold H. Messer and Vaughan Voller* 1411

Proteolytic Digestion of Meat Is Not Necessary for Iron Solubilization. *Charles E. Carpenter and Arthur W. Mahoney* 1418

Phosphorus-Induced Nephrocalcinosis and Kidney Function in Female Rats. *J. Ritskes-Hoitinga, A. G. Lemmens, L. H. J. C. Danse and A. C. Beynen* 1423

An In Vitro Study of the Effect of Picolinic Acid on Metal Translocation Across Lipid Bilayers. *Peter J. Aggett, Paul K. Fenwick and Helen Kirk* 1432

Calculation of Zinc Absorption in Humans Using Tracers by Fecal Monitoring and a Compartmental Approach. *Meryl E. Wastney and Robert I. Henkin* 1438

Effects of Starch, Sucrose, Fructose and Glucose on Chromium Absorption and Tissue Concentrations in Obese and Lean Mice. *Carol D. Seaborn and Barbara J. Stoecker* 1444

Nutrient Uptake and Transport

Effect of Dietary Taurine on Renal Taurine Transport by Proximal Tubule Brush Border Membrane Vesicles in the Kitten. *Taesun Park, Quinton R. Rogers, James G. Morris and Russell W. Chesney* 1452

Identification of Transferrin as the Major Plasma Carrier Protein for Manganese Introduced Orally or Intravenously or After In Vitro Addition in the Rat. *Lena Davidsson, Bo Lönnerdal, Brittmarie Sandström, Clemens Kunz and Carl L. Keen* 1461

Nutrient Requirements

The Determination of Nutritional Requirements in Rats: Mathematical Modeling of Sigmoidal, Inhibited Nutrient-Response Curves. *L. Preston Mercer, Hubert E. May and Steven J. Dodds* 1465

Growth, Development and Aging

Effect of Gender on the Response to a High Fat Diet in Aging Fischer 344 Rats. *Roger B. McDonald, Kristin Carlson, Carolyn Day, Judith S. Stern and Barbara A. Horwitz* 1472

Metabolism and Hormonal Regulation

Hepatic Content of *S*-Adenosylmethionine, *S*-Adenosylhomocysteine and Glutathione in Rats Receiving Treatments Modulating Methyl Donor Availability. *Susanne M. Henning, Ralph W. McKee and Marian E. Swendseid* 1478

Relationship between Dietary Fat, Adipocyte Membrane Composition and Insulin Binding in the Rat. *Catherine J. Field, Masaaki Toyomizu and M. Thomas Clandinin* 1483

Nutrition, Pharmacology and Toxicology

Effects of Chronic Ethanol and Diet Treatment on Urinary Folate Excretion and Development of Folate Deficiency in the Rat. *Kenneth E. McMartin, Timothy D. Collins, Bernard H. Eisenga, Tamaca Fortney, William R. Bates and Lee Bairnsfather* 1490

Effects of Acute Ethanol on Urinary Excretion of 5-Methyltetrahydrofolic Acid and Folate Derivatives in the Rat. *Bernard H. Eisenga, Timothy D. Collins and Kenneth E. McMartin* 1498

Nutrition and Disease Interactions

Kinetics of *Nippostrongylus brasiliensis* Infection in the Zinc-Deficient Rat. *Hassan M. A. El-Hag, Donald C. MacDonald, Paul Fenwick, Peter J. Aggett and Derek Wakelin* 1506

Effect of Dietary Restriction on Receptor-Mediated and Independent Catabolism of β-Very Low Density Lipoproteins in Cholesterol-Fed Rabbits. *Christiane Lacombe and Geneviève Corraze* 1513

Nutrition and Behavior

Route of Delivery of Phenylalanine Influences Its Effect on Short-Term Food Intake in Adult Male Rats. *Robert J. Bialik, Edmund T. S. Li, Pierre Geoffroy and G. Harvey Anderson* 1519

October, *continued*

BRIEF COMMUNICATION

Hepatic Poly(ADP ribose) Polymerase Activity in Methyl Donor–Deficient Rats. *Susanne M. Henning, Ralph W. McKee and Marian E. Swendseid* 1528

UPPER LIMITS OF NUTRIENTS IN INFANT FORMULAS

Proceedings of a symposium held in Iowa City, Iowa
November 7–8, 1988

Guest Editors
Samuel J. Fomon and Ekhard E. Ziegler

CONTENTS

Nutrients in Infant Formulas: Introduction. *Samuel J. Fomon and Ekhard E. Ziegler* 1763
Problems Associated with the Establishment of Maximum Nutrient Limits in Infant Formula. *Sanford A. Miller* 1764
An Approach to Setting Maxima in Infant Formulas. *Brian A. Wharton* 1768
Nutrient Levels in Infant Formulas: Technical Considerations. *David A. Cook* 1773
High Nutrient Intakes—The Toxicologist's View. *John N. Hathcock* 1779

December, *continued*

Potential Renal Solute Load of Infant Formulas. *Ekhard E. Ziegler and Samuel J. Fomon* 1785
Nonmetabolizable Base Balance: Effect of Diet Composition on Plasma pH. *Jonathan C. L. Shaw* 1789
Adaptation to High Protein Intakes, with Particular Reference to Formula Feeding and the Healthy, Term Infant. *Vernon R. Young and Veronique A. Pelletier* 1799
Upper Limits of Nutrients in Infant Formulas: Polyunsaturated Fatty Acids and *Trans* Fatty Acids. *Kenneth K. Carroll* 1810
Upper Limits of Intakes of Total Fat and Polyunsaturated Fatty Acids in Infant Formulas. *Elsie M. Widdowson* 1814
Water-Soluble Vitamins: Bases for Suggested Upper Limits for Infant Formulas. *Donald B. McCormick* . 1818
Upper Limits of Vitamin A in Infant Formulas, With Some Comments on Vitamin K. *James Allen Olson* 1820
Vitamin D: Can An Upper Limit Be Defined?. *Russell W. Chesney* 1825
Upper Limit of Vitamin E in Infant Formulas. *Edward F. Bell* 1829
Mineral Interactions Relevant to Nutrient Requirements. *Boyd L. O'Dell* 1832
Trace Element Absorption in Infants as a Foundation to Setting Upper Limits for Trace Elements in Infant Formulas. *Bo Lönnerdal* 1839
Calcium, Phosphorus, and Magnesium: How Much is too Much for Infant Formulas?. *Frank R. Greer* ... 1846
Upper Limits of Iron in Infant Formulas. *Peter R. Dallman* 1852
Fluoride Intake in Early Infancy. *Jan Ekstrand* 1856
Upper Limits of Zinc, Copper and Manganese in Infant Formulas. *K. Michael Hambidge and Nancy F. Krebs* 1861
Upper Limit of Iodine in Infant Formulas. *Delbert A. Fisher* 1865
Upper Limit of Selenium in Infant Formulas. *Orville A. Levander* 1869

This symposium was sponsored by the University of Iowa, American Academy of Pediatrics, Bureau of Maternal and Child Health and Resources Development, National Institute of Child Health and Human Development, and National Institute of Diabetes and Digestive and Kidney Diseases. It was also supported by Bristol-Myers, Mead Johnson and Company, Ross Laboratories, Carnation, Milupa AG, Sandoz Nutrition, Wyeth Laboratories, The Gerber Products Company, Ralston Purina, and Heinz USA.
